

## **GROW has Moderna Covid-19 2023-24 Vaccine- Limited Supply and Eligibility**

**We now have a limited supply of Moderna 6 month + Covid-19 vaccine in the clinic. Due to availability constraints, at this time we are only able to offer the vaccine to children under 3 years old.** There are not currently any upcoming clinics planned for Covid-19 vaccine administration. However, your child under 3 is welcome to receive the shot while in the office for a previously scheduled appointment, **based on product availability.**

For children aged 3 years and older, there are numerous facilities to choose from who are offering appointments for the vaccine. We are aware that these facilities are also subject to demand and availability, and for that reason the vaccine may not be available for a period of time, intermittently.

**We recommend you try the following locations:**

Tarrytown Pharmacy
